

Let's Remember

The names of the 7 continents of Earth; Africa, Asia, Antarctica, Europe, North America, South America, Oceania; and where they are on a map.

What the Equator, Tropic of Cancer and Tropic of Capricorn are and how they affect the climate zones of Earth.

Our Big Question

How are we affected by deforestation?

I Need to Know...

- What a rainforest is and how it is structured including the human and physical features it has.

- The Causes of Deforestation in the Amazon including clearing space for farming (crops, cattle); chopping down trees for wood and other products; building roads; digging for oil; flooding areas to generate electricity.
- The impact that deforestation is having on the Amazon Rainforest (for example: an area the size of 20 football pitches is destroyed every 60 seconds)
- How the types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water within the Amazon Rainforest is changing and the impacts it is having across the world.

Let's Explore

Can you make a fact file about one of the creatures only found in the Amazon Rainforest? What adaptations does it have to suit living there? How has it been affected by Deforestation?

What is similar about the Amazon Rainforest and the Congo Rainforest?

With these skills you could be a...

Rainforest Conservationist

Teach others about the importance of the environment and how they can help save rainforests.
